

Giving it to God

Verse

He said today was hard
He cleared his desk, his cards
He didn't know what he'd do next
He took the long way home
Thought of what he'd done wrong
Didn't want to tell his wife his kids

Pre Chorus

The world was caving in but there's a way out
He looked toward the sky and he cried out

CHORUS

I'm giving it to God
He will carry me through
He can break the wind, the storm
When I'm breaking in two
I'm giving it to God
When I feel I can't go on
He is strong when I am weak
I know He'll show me where I belong

Verse

She sat beside his bed
Hospital flashed in red
He was so small and innocent
If she could take his place
Memories that she'd replace
If she could only change his future

Pre Chorus

The room was closing in, she could not stop it
She looked toward the sky and she cried out

Bridge

All you've gotta do is cry out
Only God knows the way out
I know that it hurts but if you look to the sky
