

## Untold Story

### Verse

Every chance – every choice  
That I did and didn't make  
Every road – every step  
That I did and didn't take

All the twists – all the turns  
Of the moments that I was in  
All that was – and what  
Might have been

### CHORUS

Someday – I will look into  
Your face – maybe You will tell me all the  
Ways that You were guarding me  
Even when I couldn't see  
You there – though my eyes were  
Unaware – of how Your grace was guiding me  
I'll stand amazed and give You praise for every  
Untold story

### Verse

I think about – all the dreams  
I've had fall apart  
Every path – that I took  
Breaking my own heart

### Bridge

Through it all – You were there  
The hand behind the scenes  
On the move – leading  
Perfectly

Your ways are high above me  
Lord I know how You love me, love me

I will trust and my heart will believe..... That someday
